Kampala, Uganda. Available for remote work

OBJECTIVE

With over 4 years of experience in training youth in ICT, I specialize in ReactJS, Python, JavaScript, scratch and WordPress. I have a proven track record in programming projects, including website development & maintenance, web applications, and backend systems. Committed to continuous learning, I leverage my skills to adapt to the dynamic technology landscape.

PROFESSIONAL EXPERIENCE

Co-Founder & Community Manager - Cariya Wallet   2024 - September 2025

Cariya wallet is an organisation that leverages crowdfunding and alternative credit scoring on specific milestones for women to address the lack of social security for children in Sub Saharan Africa.

- Help build a friendly and supportive community for women using the Cariya Wallet platform.
- Share helpful information about saving money and sending money through social media and community events, which keeps the community safe, respectful, and active.
- Welcome new users and answer their questions, both online and in person.
- Collect user feedback and share it with the team to help improve the platform.
- Plan and lead workshops to teach women about savings, mobile wallets, and managing money.
- Write simple messages, posts, and guides to explain how to use Cariya Wallet.

Learning Facilitator - Kampabits 2018 –2024

Kampabits creatively uses ICT multi-media to improve the lives of underprivileged youth from underrepresented communities. During my time my noticeable achievements include:

- Developed and implemented cutting-edge training programs in web development, computer applications, and digital design, positively impacting over 400+ youths.
- Cultivated an engaging and supportive learning environment, expertly addressing technical challenges and providing hands-on mentorship.
- Fostered a collaborative atmosphere, ensuring students gained comprehensive ICT skills and confidence.

Team Lead - Vibrant Innovations 2024

Vibrant Innovations is a startup providing web business advisory services, enabling businesses and organizations to leverage the World Wide Web efficiently and profitably.

- Led a team of developers and designers in delivering diverse web projects, overseeing the development of branded web services that harness the internet's power for business growth.

- Provided technical direction and support to ensure high-quality code, efficient project execution, and implementation of best practices like code reviews, testing, and continuous integration.

- Interacted directly with clients to gather requirements, provide updates, and deliver tailored web solutions on time and within budget, ensuring client satisfaction.

Tunga, Uganda - Tunga Tech Jobs Course 2019
Tunga is a renowned tech outsourcing company based in Uganda, specializing in connecting African software developers with international clients.

- Specialized in full-stack web development using Python and JavaScript, creating efficient, scalable web applications and backend systems that met diverse client needs.
- Developed robust solutions, integrating backend functionalities and optimizing performance to enhance user experience and business outcomes.

Intern at Eye Opener Works Uganda 2019
EyeOpener Works is an international creative agency supporting organizations in creating social and sustainable impact.

- Leveraged IATI data to build a comprehensive network graph visualizing intricate relationships among various organizations, facilitating deeper insights into organizational dynamics and enhancing strategic decision-making processes.
- Contributed to the development of innovative data visualization tools that enabled organizations to better understand and leverage their networks for social and sustainable impact.

EDUCATION BACKGROUND

Software Engineer Trainee at Refactory - 2025
The Refactory Apprenticeship Program actively promotes diversity by granting access to individuals aged 20 to 35 from underrepresented backgrounds. Through technology training, the program contributes to a skilled workforce, creating opportunities for innovation and entrepreneurship for our industry partners (companies & organizations).
